

Musical Instruments

Stringed Instruments- include guitars, banjos, violins, violas, cellos and harps. They make sounds with vibrating strings. The strings vibrate when plucked or rubbed by a bow.

Wind Instruments- include flutes, oboes, clarinets, bassoons, saxophones, trumpets, trombones, French horns, and tubas. These instruments make sound when a person blows air into them. The air vibrates.

Percussion Instruments- include drums, cymbals, tambourines, and xylophones. These make noise when they are hit and then vibrate.
